Dear Mr. Imran,

Based on the information provided and your interview feedback for the 3 candidates, we have no objection for selecting Mr. Jalal Abbas Jafri for the Environmental, Health and Safety Specialist position of the PMT. I already sent you our no objection for the other 3 candidates, these are as follows:

Ms. Huma Asher as Gender Specialist
Mr. Anir Hamza as Social Development Specialist
Mr. Malik Zafer Iqbal as Procurement and Contract Management Specialist

We propose that their remuneration is between 250k and 300k PKR depending on their experience and qualification. So the ones with more experience and higher academic qualification you pay them close to 300k, and the others with less experience you pay them close to 250k.

Please let me know if you have any question and once you have the information please let me know about their joining date. Let's make sure you sign their contract asap because some may need to give 1 month notice.

Best regards

Dear Mr. Imran,

1. Based on the information we received and after today's talk, we have No Objection on the selection of Ms. Huma Ashar as Gender Specialist under the PMT. However, her salary should be commensurate with her experience and what you are offering to other Specialists, so we recommend her monthly remuneration to be between **250K and 300K PKR**. We also reiterate that the **best office and working condition should be made available to her including facilities etc..**
2. As for the Env. Specialist, we discussed internally and thought it will be best for us to talk to the 2nd and 3rd ranked candidates. Could you please arrange for it. Best to be 11 am so Take can connect from Japan.

Again thank you for moving forward with the hiring of the PMT. I think you have selected a good team and it is really up to you (with our help) to keep them busy and motivated. We discuss that once they are on board.

Dear Mr. Imran,

Apologies for the delayed response but it is a while to go over all the candidates.

- I would like to confirm that current Domicile should not be a factor not to shortlist a candidate, obviously if selected he/she needs to establish a residency in Karachi and reside permanently in Karachi.
- Our rule of not shortlisting existing PIUs staff of other bank's financed projects in Pakistan remains the same. However since few of them indicated that they are leaving their current position anyway, then it is ok to interview them, BUT if selected you still need to get it cleared by us first so we double check their exact status. We don't want them to be pretending leaving their job so they get an interview with you. Ideally we would want them to have left their current job before the interview and without any guarantee from you that they will be selected for this job.

Based on the information you shared with us, we recommend the following candidates to be interviewed.

1. Environment Specialist Position

- Syed Jalal Abbas Jafri
- Raheel Ahmed
- Muhammad Ahmed
- Adnan Saleem Khan
- Zaeshan Khan Afridi
- Jibran Khalid Kowal – His final selection will be pending on getting it approved by us since he is currently working on another WB project in Sindh
- Um-e-Aiman

Social Development Specialist

- Amir Hamza – His final selection will be pending his confirmation that he has completed his residency requirement for his PhD in China and that he will be able to manage his job while writing a PhD dissertation

3. Gender Specialist Position

- Human Ashar
- Nazia Mir
- Uzma Bano – Her final selection will be pending on getting it approved by us since she is currently working on another WB project in Karachi

4. Procurement Specialist

- ASAD RASOOL
- Tariq Haque
- Mohsen Islam Khan

We proceed with the interviews and let us know the outcome so we meet with your selected candidate for each position before you extend them a job offer.

Dear Mr. Imran,

Apologies for the delayed response but it us a while to go over all the candidates.

- I would like to confirm that current Domicile should not be a factor not to shortlist a candidate, obviously if selected he/she needs to establish a residency in Karachi and reside permanently in Karachi.
- Our rule of not shortlisting existing PIUs staff of other bank's financed projects in Pakistan remains the same. However since few of them indicated that they are leaving their current position anyway, then it is ok to interview them. BUT if selected you still need to get it cleared by us first so we double check their exact status. We don't want them to be pretending leaving their job so they get an interview with you. Ideally we would want them to have left their current job before the interview and without any guarantees from you that they will be selected for this job.

Based on the information you shared with us, we recommend the following candidates to be interviewed.

1. Environment Specialist Position

- Syed Jalal Abbas Jafri
- Raheel Ahmed
- Muhammad Ahmed
- Adnan Saleem Khan
- Zeeshan Khan Afridi
- Jibrin Khalid Kidwai – His final selection will be pending on getting it approved by us since he is currently working on another WB project in Sindh
- Um-e-Aiman

2. Social Development Specialist

- Amir Hamza – His final selection will be pending his confirmation that he has completed his residency requirement for his PhD in China and that he will be able to manage his job while writing a PhD dissertation

3. Gender Specialist Position

- Human Ashar
- Nazia Mir
- Uzma Bano – Her final selection will be pending on getting it approved by us since she is currently working on another WB project in Karachi

4. Procurement Specialist

- ASAD RASOOL
- Tariq Haque
- Marisen Islam Khan

Please proceed with the interviews and let us know the outcome so we meet with your selected candidates for each position before you extend them a job offer.

Best regards

Said

Dear Mr. Iman,

Apologies for the delayed response but it us a while to go over all the candidates.

- I would like to confirm that current Domicile should not be a factor not to shortlist a candidate, obviously if selected he/she needs to establish a residency in Karachi and reside permanently in Karachi.
- Our rule of not shortlisting existing PIUs staff of other bank's financed projects in Pakistan remains the same. However since few of them indicated that they are leaving their current position anyway, then it is ok to interview them. BUT if selected you still need to get it cleared by us first so we double check their exact status. We don't want them to be pretending leaving their job so they get an interview with you. Ideally we would want them to have left their current job before the interview and without any guarantee from you that they will be selected for this job.

Based on the information you shared with us, we recommend the following candidates to be interviewed.

1. Environment Specialist Position

- Syed Jalal Abbas Jafri
- Raheel Ahmed
- Muhammad Ahmed
- Adrian Saleem Khan
- Zeeshan Khan Afridi
- Jibran Khalid Kidwai – His final selection will be pending on getting it approved by us since he is currently working on another WB project in Sindh
- Um-e-Aiman

2. Social Development Specialist

- Amir Hamza – His final selection will be pending his confirmation that he has completed his residency requirement for his PhD in China and that he will be able to manage his job while writing a PhD dissertation

3. Gender Specialist Position

- Human Ashar
- Nazia Mir
- Uzma Bano – Her final selection will be pending on getting it approved by us since she is currently working on another WB project in Karachi

4. Procurement Specialist

- ASAD RASOOL
- Tariq Haque
- Mohnsen Islam Khan

Please proceed with the interviews and let us know the outcome so we meet with your selected candidate for each position before you extend them a job offer.

best regards

Said

4. Furthermore, according to the RFP a pre-proposal conference was held in the Conference room of Sindh Mass Transit Authority on 19.11.2020 at 10:30 AM, wherein, pre-qualified bidders participated for clarification on RFP. Some of the queries were responded immediately,

however, it was decided that all participants will submit their queries in black and white with in two working days ending on Monday. 23.11.2020 at 5:00 PM. The project team will take three working days to respond to queries in consultation with the World Bank.

5. Besides, consultant selection for Procurement of Detailed Design, Procurement Support and Construction Supervision Consultant, a Project Management Consultant (PMC) is also to be procured to ensure professional, efficient and optimal facilitation and coordination of the Project activities and assist the Project Management Team and ensure capacity building to SMTA on priority basis. Expressions of Interest (EOI) and Terms of Reference (TOR) for PMC are to be finalized by the CSC by 25.11.2020 as agreed with the World Bank.

6. On account of Project Management Team (PMT) staffing, it is apprised that two specialists have been finalized and job contracts issued to them including their monthly remuneration. However, four positions i.e. Procurement/Contract Management Specialist, Gender Specialist, Social Development Specialist and Safety, Health, Environment & Quality Specialist have been re-advertised/published on 06.11.2020 with application deadline as 10 days after publication of advertisement i.e. 16.11.2020. In this regard it is stated that sufficient applications have been received against the positions mentioned supra. Timeline for completion of hiring process for said specialists is following:

S.No	Date	Activity	Status
1.	06.11.2020	Publication of advertisement	Completed
2.	16.11.2020	Deadline for submission of applications	Completed
3.	20.11.2020	Shortlisting of Applications	In process
4.	23.11.2020	Sharing of Shortlisting with World Bank	Tentative
5.	27.11.2020	Recommendations from World Bank for interviews of shortlisted applicants	Tentative
6.	30.11.2020	Interviews of shortlisted applicants	Tentative
7.	04.12.2020		

7. As your good self is quite aware that hiring of specialists is expedited and by the first week of December, 2020 the process will be completed. However, currently we are facing accommodation issues as there is no such sitting arrangement for these specialists. In this regard, I request, you to please expedite sitting arrangements for the specialists as well as other team members to come.

8. On account of Project Management Team you are also aware that Director Infrastructure/Projects is single handedly dealing with the project assignments. This is due to the

fact that Infrastructure/Projects directorate is acutely understaffed. This issue was also highlighted during the meeting with the Country Director, World Bank on 05.11.2020 in presence of Minister TMTD/Chairman SMTA. In this regard, I urge you to kindly expedite hiring process of professional workforce on merit so that not only this project but other projects of SMTA should run smoothly.

Pursuant to approval accorded by your good office as at paragraph 10 on Yellow Line BRTS, SMTA's Note of even No. dated 27-10-2020 (**Annexure-A**), A detailed information regarding the selection process and hiring of candidates for the roles of Financial Management Specialist (FMS), Procurement/ Contract Management Specialist (PCMS) and Communication Specialist (CS) was communicated to the Task Team Leader (TTL) of World Bank vide email dated 20-11-2020, beside email communication the World Bank team was also engaged to have final words with the selected candidates. Based on the conversation with the selected candidates the bank suggested to re-advertise the PCMS position in addition the bank also recommended Mr. Javaid Islam (candidate no. 3 in order of merit) for the position of FMS instead of Miss Kanza Aslam Memon. The reason to decline her selection was the Bank's Policy to not hire any employee who is already working on similar nature of assignment with the bank, so other projects do not suffer due to employee leaving the project / assignment. Accordingly, Miss Kanza Aslam is working as Internal Auditor with additional charge of FMS in Karachi Neighborhood Improvement Project (KNIP) and Mr. Sanjay Kumar (No. 2 in order of merit) is working as FMS in federal EPI Cell, Ministry of National Health Sciences, Government of Pakistan, that's why their candidature was not considered by the Bank and recommended to re-advertise the position (**Annexure-B**).

2. Furthermore, in accordance with the World Bank's virtual supervision mission letter dated 07.10.2020 (**Annexure-C**) and the agreed action plan, the following positions are required to be advertised.

Mr. Syed Awais Qadir Shah

Karachi

Dear Mr. Shah:

Subject-Karachi Mobility Project "Yellow Bus Rapid Transit Corridor"
Detail Designs/Supervision Consultant and Project Management Team

I would like to thank you for the meeting that took place in Karachi on January 16th to discuss the launch of the implementation of the Karachi Mobility Project. The Loan Agreement of the Project (8995-PK) was signed and became effective on November 26, 2019.

As agreed, I would like to request your close attention to the following critical issues, so the Project is on track for implementation as per the project agreement:

- Publication of the Expression of Interest for the Detail Designs and Supervision Consultant by January 24, 2020.
- Assignment of a Project Director by February 15, 2020 to lead the Project Management Team. Please share with us the notification of the Project Director once issued so we take note of it.
- Hiring of six specialist positions from the market and on competitive basis to form the Project Management Team by March 31, 2020. These are: Procurement, Financial Management, Environment, Social, Gender and Communications specialists whose jobs' description have been agreed with SMTA several months ago. These positions will be funded from SMTA's budget. Please share with us the advertisement of these positions once published.
- Additional engineering and technical staff may be hired as per PC-1 requirement before commencement of civil works and taking into consideration the results of the ongoing batch recruitment that SMTA is doing in order to avoid duplication of hiring.

Once again, I thank you for your commitment to this Project and I look forward to continuing our support to the Government of Sindh in implementing a world class mobility system in Karachi that will be a model for other mega cities around the world.

Sincerely yours,

Said Dahdah
Senior Transport Specialist
Task Team Leader

Government of Sindh

Sajid Jannat Abro, Principal Secretary to the Chief Minister
Mr. Muhammad Wassim, Chairman Planning and Development Board
Mr. Ghulam Abbas Ditho, Secretary, Transport & Mass Transit, Department
Mr. Iqbaldar Ahmed, Managing Director, Sindh Mass Transit Authority
Mr. Muhammad Yousaf Munir, Director (Infrastructure), Sindh Mass Transit Authority
Mr. Yazeen Ali Shah, Acting Director (Administration & HR), Sindh Mass Transit Authority

implement the Project, rather than setting up an exclusive standalone Project Implementation Unit.

32. Stakeholder consultation and an effective communication strategy will be critical. The Project has carried out extensive consultations with all stakeholders, including KMC, KDA, Transport Ittihad, Korangi Association of Trade and Industry (KATI), local administration, Non-Government Organizations (NGO) and others, and will continue stakeholder engagement throughout Project implementation.

III. IMPLEMENTATION ARRANGEMENTS

A. Institutional and Implementation Arrangements

33. Implementation period of the Project is planned for six and a half (6.5) years (July 2019 to December 2025).
34. The Project's Implementation Arrangements cannot be designed in isolation of the existing institutional arrangements in the urban transport sector. SMTA remains a nascent and understaffed authority, and needs support to be able to plan, design, implement and manage mass transit systems in Karachi and other cities of Sindh. Its organogram shows 69 professional positions, of which only 19 have been filled.
35. International experience finds that SMTA should focus on defining a policy for transport integration in Sindh, including regulations, strategic planning, and design of mass transit systems. For this, SMTA shall select staff with the required background who will be further trained to implement these activities throughout the Project lifecycle. SMTA may delegate some of its functions to TransKarachi, especially the management of the operations and maintenance of the mass transit corridors once they are built.
36. Project oversight will be the responsibility of the SMTA Board. A separate Project Steering Committee is not envisaged as all concerned stakeholders are already part of the SMTA Board. The Board may co-opt any person as a Member of the Board for any particular purpose, but such person shall not have right of vote. SMTA and Sindh Transport and Mass Transit department will ensure meetings of SMTA Board are held regularly i.e. at least once a month for the first year of Project implementation.
37. The Project does not envisage a separate standalone Project implementation unit. An internal Project Management Team (PMT) comprising of existing SMTA staff will be notified and will be supported by management and technical consultants as necessary. This arrangement will allow the Project to build SMTA's capacity, which is not possible with a Project Implementation Unit (PIU) model that is normally staffed with individual consultants. The Project Management Team will consist of staff from the Directorates of Planning, Projects, Bus Operations, ITS and Business Development. The Project Director is expected to be notified before no later than one month after Project effectiveness. SMTA has already started the process of hiring key positions including specialists on Environment, Communications and Gender, and Secretary of Board. Moreover, SMTA plans to continue the recruitment process by onboarding social, procurement, financial and contract management specialists. All the above positions will be filled no later than one month after Project effectiveness. Additional engineering and technical staff will be hired as per requirement before commencement of civil works.

38. The Project Management Team will receive support from a dedicated infrastructure Project

405

Project's objectives; and (b) overall Project performance against Project monitoring indicators. A Mid-Term Review will be undertaken not later than 36 months after Effectiveness to more comprehensively assess implementation progress and set out any measures to ensure continued efficient implementation and the achievement of the PDO by the Project's closing date.

C. Sustainability

45. The PPP arrangements for the operations and maintenance of the BRT system will ensure sustainability of quality services delivered by private operators. A Concessionaire will be selected through an international competitive bidding process to finance, operate and maintain bus operation and ITS services and to manage the stations along the Yellow Corridor. The World Bank may also offer a credit enhancement to the prospective bidders for the (Operations and Management) O&M contract in the form of a payment (and/or loan) Guarantee, which will lower the risk and widen the competition, thus contributing to the long-term financial sustainability of the system.

46. The Project infrastructure will be disaster and climate resilient. The structures will conform to the relevant codes related to earthquake zoning and will also ensure adequate surface and sub-surface drainage is built into the infrastructure design to cater to any potential flooding. Weather resistant material will be used for the road construction. The paving material will be such that it will withstand extreme weather conditions of heavy rains and high temperatures. The surface material will be specially selected to resist water and prevent it to be washed away. Storm water drainage system will be constructed along the corridor to avoid flooding of the road. The capacity of the drainage system is designed in anticipation with extreme weather conditions predicted under international climate change models for Karachi region to cater for maximum storm water runoff.

47. The proposed Project will focus on climate change adaptation and mitigation measures and other environmental Co-Benefits. It will shift road users from polluting transport modes (e.g. old, poorly maintained buses and motorcycles) to lower carbon modes (e.g. cleaner BRT buses and non-motorized transport) and ensure better traffic flow, and use climate-resistant material for road construction, an appropriate drainage system and incorporate features at Stations to attenuate heat waves. It will also reconstruct the existing Jam Sadiq bridge crossing the Malir river and will construct a new one parallel to it doubling the road link's capacity. Similarly, it will reconstruct the southern side of the Kala-Pull bridge.

48. A storm water drainage system will be constructed for the underpasses. The underpass roads will be sloped to collect water at grates that will lead to the drainage pipe and collection pits. Submersible pumps will be installed at the collection pits to discharge storm water to the nearby storm water drain network. A set of submersible pumps will also be added to serve as backup pumps. The capacity and the number of collection pits and submersible pumps will be computed based on extreme weather conditions predicted under international climate change models for Karachi region. Generators will be installed at each underpass as a power backup for the submersible pumps because of power outage issues during rainy season.

49. The Project is also ensuring institutional sustainability by building capacity within the SMTA. The Project will be implemented through SMTA's staff, rather than setting up a separate Project implementation unit. This will ensure long term ability of SMTA to implement and manage other mass transit Projects in Karachi and other cities in Sindh.

Dear Mr. Imran,

Apologies for the delayed response but it us a while to go over all the candidates.

- I would like to confirm that current Domicile should not be a factor not to shortlist a candidate, obviously if selected he/she needs to establish a residency in Karachi and reside permanently in Karachi.
- Our rule of not shortlisting existing PIUs staff of other bank's financed projects in Pakistan remains the same. However since few of them indicated that they are leaving their current position anyway, then it is ok to interview them, BUT if selected you still need to get it cleared by us first so we double check their exact status. We don't want them to be pretending leaving their job so they get an interview with you. Ideally we would want them to have left their current job before the interview and without any guarantee from you that they will be selected for this job.

Based on the information you shared with us, we recommend the following candidates to be interviewed.

1. Environment Specialist Position

- Syed Jalal Abbas Jafri
- Raheel Ahmed
- Muhammad Ahmed
- Ahsan Saleem Khan
- Zeeshan Khan Afridi
- Jibran Khalid Kidwai – His final selection will be pending on getting it approved by us since he is currently working on another WB project in Sindh
- Um-e-Ahman

2. Social Development Specialist

- Amir Hamza – His final selection will be pending his confirmation that he has completed his residency requirement for his PhD in China and that he will be able to manage his job while writing a PhD dissertation

3. Gender Specialist Position

- Human Ashar
- Nazia Mir
- Uzma Bano – Her final selection will be pending on getting it approved by us since she is currently working on another WB project in Karachi

4. Procurement Specialist

- ASAD RASOOL
- Tariq Haque
- Monser Islam Khan

We proceed with the interviews and let us know the outcome so we meet with your selected candidate for each position before you extend them a job offer.

Best regards

Said

Mr. Muhammad Waseem
Chairman
Planning & Development Board
Government of Sindh
Karachi

Dear Mr. Waseem:

***RE: Karachi Mobility Project (KMP)
Virtual Supervision Mission, September 28 – 30, 2020***

We would like to thank the Planning and Development Department (P&DD), Transport and Mass Transit Department and Sindh Mass Transit Authority (SMTA), Government of Sindh for extending support to the World Bank during the virtual supervision mission from September 28 to 30, 2020 of the Karachi Mobility Project (KMP). We also appreciate the efforts of the newly appointed Project Director (PD) and his limited Project Management Team (PMT) for expediting the implementation of the project.

The purpose of this mission was to review the overall progress of the project, agree on next steps and provide an overview of the Bank's requirements for procurement, financial management, environment, and social safeguards. During the mission, the Bank and SMTA jointly identified the following activities/ milestones which are on a critical path and require immediate attention. Progress on all these activities/ milestones would have a positive impact on the project rating and disbursement.

Hiring of PMT staff: It has been delayed by almost 9 months and has hampered overall progress of the project. The PD informed the mission that the hiring of the procurement, financial management and communications specialists is at an advanced stage and the selection process will be concluded by 20 October 2020. The remaining PMT specialists (environment, social and gender) would be onboard by 15 November 2020. It was agreed that these specialists will be hired on contractual basis following the jobs descriptions agreed with the Bank.

Design and Supervision Consultant: We are pleased to report that good progress has been achieved recently in the selection of this Consultant, and the PMT has submitted on 23 September 2020 the RFP for Bank's review and no objection. It is expected that the Bank will provide a No Objection and the RFP will be issued to the shortlisted firms by October 10, 2020. The Bank would arrange a virtual training for the Consultant Selection Committee that will strengthen their capacity to evaluate the technical proposals that will be submitted by the shortlisted firms. This will enable the completion of the technical evaluation within 3 weeks from receipt of proposals.

Procurement Plan (PP): The PP was updated during the mission and was cleared by the Bank. In total 12 contracts are included totaling USD 77 million. It was agreed to launch the procurement of few activities in the next few months, besides the conclusion of the selection of the Design and Supervision Consultant.

An amount up to \$12 million has been reallocated from the Project's contingencies to cover these additional works. The Bank proposed that the PD will quickly identify and submit to the Bank a proposed list of road works including drainage improvement and associated costs in consultation with other relevant stakeholders in Karachi (KNIP, CLICK, KWSB and others).

Grievance Redressal Mechanism (GRM), Safeguards and Communications: It was agreed that the PMT will hire under Component 3 of the Project a web-developer for a SMTA's website including a page dedicated for this Project as well as a GRM system. implement the Project, rather than setting up an exclusive standalone Project Implementation Unit.

32. **Stakeholder consultation and an effective communication strategy will be critical.** The Project has carried out extensive consultations with all stakeholders, including KMC, KDA, Transport Ittihad, Korangi Association of Trade and Industry (KATI), local administration, Non-Government Organizations (NGO) and others, and will continue stakeholder engagement throughout Project implementation.

III. IMPLEMENTATION ARRANGEMENTS

A. Institutional and Implementation Arrangements

33. **Implementation period of the Project is planned for six and a half (6.5) years (July 2019 to December 2025).**

34. **The Project's Implementation Arrangements cannot be designed in isolation of the existing institutional arrangements in the urban transport sector.** SMTA remains a nascent and understaffed authority, and needs support to be able to plan, design, implement and manage mass transit systems in Karachi and other cities of Sindh. Its organogram shows 69 professional positions, of which only 19 have been filled.

35. **International experience finds that SMTA should focus on defining a policy for transport integration in Sindh, including regulations, strategic planning, and design of mass transit systems.** For this, SMTA shall select staff with the required background who will be further trained to implement these activities throughout the Project lifecycle. SMTA may delegate some of its functions to TransKarachi, especially the management of the operations and maintenance of the mass transit corridors once they are built.

36. **Project oversight will be the responsibility of the SMTA Board.** A separate Project Steering Committee is not envisaged as all concerned stakeholders are already part of the SMTA Board. The Board may co-opt any person as a Member of the Board for any particular purpose, but such person shall not have right of vote. SMTA and Sindh Transport and Mass Transit department will ensure meetings of SMTA Board are held regularly i.e. at least once a month for the first year of Project implementation.

37. **The Project does not envisage a separate standalone Project implementation unit. An internal Project Management Team (PMT) comprising of existing SMTA staff will be notified and will be supported by management and technical consultants as necessary.** This arrangement will allow the Project to build SMTA's capacity, which is not possible with a Project Implementation Unit (PIU) model that is normally staffed with individual consultants. The Project Management Team will consist of staff from the Directorates of Planning, Projects, Bus Operations, ITS and Business Development. The Project Director is expected to be notified before no later than one month after Project effectiveness. SMTA has already started the process of hiring key positions including specialists on Environment, Communications and Gender, and Secretary of Board. Moreover, SMTA plans to continue the recruitment process by onboarding social, procurement, financial and contract management specialists. All the above positions will be filled no later than one month after Project effectiveness. Additional engineering and technical staff will be hired as per requirement before commencement of civil works.

38. **The Project Management Team will receive support from a dedicated infrastructure Project**

Project's objectives; and (b) overall Project performance against Project monitoring indicators. A Mid-Term Review will be undertaken not later than 36 months after Effectiveness to more comprehensively assess implementation progress and set out any measures to ensure continued efficient implementation and the achievement of the PDO by the Project's closing date.

C. Sustainability

45. **The PPP arrangements for the operations and maintenance of the BRT system will ensure sustainability of quality services delivered by private operators.** A Concessionaire will be selected through an international competitive bidding process to finance, operate and maintain bus operation and ITS services and to manage the stations along the Yellow Corridor. The World Bank may also offer a credit enhancement to the prospective bidders for the (Operations and Management) O&M contract in the form of a payment (and/or loan) Guarantee, which will lower the risk and widen the competition, thus contributing to the long-term financial sustainability of the system.

46. **The Project infrastructure will be disaster and climate resilient.** The structures will conform to the relevant codes related to earthquake zoning and will also ensure adequate surface and sub-surface drainage is built into the infrastructure design to cater to any potential flooding. Weather resistant material will be used for the road construction. The paving material will be such that it will withstand extreme weather conditions of heavy rains and high temperatures. The surface material will be specially selected to resist water and prevent it to be washed away. Storm water drainage system will be constructed along the corridor to avoid flooding of the road. The capacity of the drainage system is designed in anticipation with extreme weather conditions predicted under international climate change models for Karachi region to cater for maximum storm water runoff.

47. **The proposed Project will focus on climate change adaptation and mitigation measures and other environmental Co-Benefits.** It will shift road users from polluting transport modes (e.g. old, poorly maintained buses and motorcycles) to lower carbon modes (e.g. cleaner BRT buses and non-motorized transport) and ensure better traffic flow, and use climate-resistant material for road construction, an appropriate drainage system and incorporate features at Stations to attenuate heat waves. It will also reconstruct the existing Jam Sadiq bridge crossing the Malir river and will construct a new one parallel to it doubling the road link's capacity. Similarly, it will reconstruct the southern side of the Kala-Pull bridge.

48. **A storm water drainage system will be constructed for the underpasses.** The underpass roads will be sloped to collect water at grates that will lead to the drainage pipe and collection pits. Submersible pumps will be installed at the collection pits to discharge storm water to the nearby storm water drain network. A set of submersible pumps will also be added to serve as backup pumps. The capacity and the number of collection pits and submersible pumps will be computed based on extreme weather conditions predicted under international climate change models for Karachi region. Generators will be installed at each underpass as a power backup for the submersible pumps because of power outage issues during rainy season.

49. **The Project is also ensuring institutional sustainability by building capacity within the SMTA.** The Project will be implemented through SMTA's staff, rather than setting up a separate Project implementation unit. This will ensure long term ability of SMTA to implement and manage other mass transit Projects in Karachi and other cities in Sindh.
